COBRA BATTLE BELT

PATENTED AUSTRIALPIN TACTICS BELT -

Patented AustriAlpin COBRATM is located in Austria and was named a premium hardware brand in 1996.

It is high-quality PPE security hardware. Whether it is industrial safety, backwardness, party, special police, fire, police, tactics, drama rigging, rock climbing and mountaineering, you will not find higher quality or safer products anywhere in the world. You can trust that our hardware is safe and consistent.

> Patented Austri COBRATM Quie

EMERSONGEAR LCS COMBAT BELT

EM9577 | SIZE: S:31"-37" M:34"-40" L:37"-43" XL:40"-46" (INCH) | 0.393KG

Material: 500D Cordura Oxford (nylon 100%)

Color: MC/RG/CB

Selling Point: 1.Laser MOLLE: the new laser cutting MOLLE system is used on the outside of the belt, which is simple and not heavy, and closely

follows the trend of simple and lightweight tactics.2.Lightweight: the traditional ribbon MOLLE system is reduced, and the laser cutting method is used, which plays a certain lightweight role in vision and itself.3. Inner waistband; the inner waistband has double-layer fitting of magic wool and anti-seismic mesh sponge, which improves the comfort and breathability of sticking to the waist compared with the conventional inner waistband.4.Imported buckle: the belt adopts Cobra buckle imported from Austria, which is the world's top safety

buckle, and can withstand the maximum 18kn (4000 pounds) tension of Cobra buckle

Optional colours vary depending on models. For details, please contact our staff.

COBRA 1.5INCH BELT

This product is one of the emersonear Cobra series belts. It is positioned as a daily carrying inner belt. It has a light belt body and "Cobra" Cobra fastener from Austrian outdoor origin. It has an amazing 1.8 ton horizontal tension load-bearing margin to ensure the strong binding force of the belt without being too heavy. Therefore, even as a tactical mount, it is not inferior.

EM9301| SIZE: S / M / L | COLOR: CB / BK / FG / MC / KH

75cm~85cm

COBRA 1.75INCH INNER BELT

This product is one of emersongear Cobra series belts. It is aimed at daily carrying belts. It is designed with a standard military width of 1.75 and matched with the cobra fastener of Austrian outdoor. It has an amazing 1.8 ton horizontal tension load-bearing margin. This belt is more suitable for friends who like tactics and outdoors. There is no pressure when Binding heavy tactical pants and outdoor clothes.

EM9302 | SIZE: S / M / L | COLOR: KH / BK / FG / CB

COBRA D-RING RIGGERS BELT

EmersonGear Cobra D-Ring Riggers Belt is made of imported military regulations webbing, which has the characteristics of abrasion resistance, oil resistance and so on. The belt buckle adopts "Cobra" from Austrian outdoor origin "Cobra fastener, its horizontal tension can reach 1.8 tons! The belt width is 1.75 inches, which can be compatible with most tactical pants and commuter pants. It has achieved a perfect balance in bearing capacity and comfort. The belt is made of precision sewing to meet the requirements of high-strength use. The car on the inside of the belt body has a full face of loop, which can be used as a tactical waist seal together with the inner belt with double-sided loop.

HURRICANE 1,75INCH JACQUARD WEAVE COMBAT BELT

The structure of this product adopts the internal and external waistband mode. It is equipped with a double-sided internal waistband and the main body of the external waistband. This design determines the possibility of quick disassembly and quick response. The width of 2 inches is much narrower than that of most waist seals. In exchange, it is light and not cumbersome. Even though it is light, the binding force of the body equipped with the eye snake buckle is no less than that of other waist seals. The double-layer structure strengthens the hardness, and can effectively improve the speed when quickly taking objects on the belt! The outer belt is covered with MOLLE mounting design, so that the waist can completely provide users with a good and stable mounting platform.

COBRA 1.5INCH BELT

EmersonGear COBRA 1.75inch One-pcs Combat Belt is divided into internal and external belt structures, which can be used separately, making it convenient for users to carry and task. The product is made of military discipline standard raw materials, which are tear resistant, high-strength, abrasion resistant and oil resistant. The belt buckle head adopts Austrian patent fastener, and its horizontal tension can withstand up to 1.8 tons. In terms of design, the inner side of the outer belt is the hook surface, and the outer side of the inner belt is the wool surface. When used separately, it will not affect the interference of clothes and other accessories

EM9455 | SIZE: S / M / L / XL | COLOR: BK / CB / MC / WG

COBRA BATTLE BELT

Emersongear Cobra Battle Belt adopts the internal and external waistband mode, which is equipped with a 1.75 internal waistband and an external waist seal body. Such a design determines the possibility of quick disassembly and quick response. Players can use this product in combination and separately. The outside of the waist seal body is made of block unit structure, which makes the tactical accessories fit the body after being installed. In addition, there is a cushion to improve the comfort of the waist after fastening. In addition, the end MOLLE block element is designed to be fully open and closed. It can be used as auxiliary fixation with leg rifle cover and leg plate. In terms of materials, the imported kaudura 500D Oxford cloth (100%nylon), the authorized multicam pattern main material, and the "Cobra" Cobra button from Austria's outdoor lineage have a transverse tensile force of 1.8 kn! The belt body inherits the MOLLE modular expansion system and can be used together with the MOLLE system accessories.

LBT 1647B STYLE MOLLE BATTLE BELT

EmersonGear LBT1647B Style Molle Battle Belt emphasizes strong carrying capacity. It adopts thickened padding and main body, so that the human body is still in a comfortable state when carrying more objects. The belt is divided into two parts: waist seal main body and binding belt. Users can use them separately. We are equipped with thickened cushion at the position of contact with human body, which is a very comfortable configuration for heavy waist seal.

BATTLE BELT FOR KIDS

EmersonGear CP style AVS/JPC dedicated lite version abdominal belt is a replacement accessory dedicated to the Emersongear AVS reloaded tactical vest. It is a convenient way to change the AVS reloaded vest into a simplified version by replacing the abdominal belt. When we designed it, we added a PE reinforcement panel to the middle layer of the double-layer webbing as a reinforcement, so that it has a reliable carrying capacity when mounting other tactical accessories.

EM9400 | SIZE: ONE SIZE | COLOR: MC

SNIPER WAIST PACK

EmersonGear Sniper Waist Pack is made of 500D / 1000D military fabric, which has the characteristics of abrasion resistance, water repellent, oil and dirt resistance. Four horizontal accessory bags of different sizes are attached to the waist seal body, which is very suitable for carrying heavy tactical accessories and sniper equipment. After purchase, users can avoid the secondary consumption of matching accessory bags, and can be directly fixed on the tactical belt.

LCS PISTOL MAGAZINE POUCH

1.Laser MOLLE: the surface layer adopts a new laser cutting MOLLE system, which has a simple but not heavy appearance and closely follows the trend of simple and lightweight tactics. 2.Lightweight: the traditional webbing MOLLE system is reduced, and the laser cutting method is used, which plays a certain lightweight role both visually and in itself (the conventional single pistol cartridge case is 91g, this one is 51g, 40g lighter). 3. Versatility: it can be matched with various types of MOLLE system vests and belts, and is suitable for pistol magazines.

PLASTIC HOLSTERS

BH STYLE DEFENCE IWB HOLSTER SET | EM2332

Capacity:: GLOCK17/19/19x/22/23/31/32/44/45/47

Color: 16cm X 17cmô For reference onlyö

Selling Point: Emersongear BH Style Defence IWB Holster Set can carry a variety of Glock instruments (including glock17/19/19x/22/23/31/32/44/45/47) and magazine *1. The product is a classic wearable (IWB) low visibility portable product, which is convenient for users to use in scenarios with hidden needs. The body is supported by full nylon, which is soft and tough, and the comfort when wearing the inner waist is better than most IWB products on the market.

In terms of structure, it has an adjustable back clip to deal with users with different usage habits and angles, so that the comfort and efficiency of the set can be effectively improved when wearing. At the same time, it also has a shirt guard bracket to appropriately support and change the shape of the jacket when the product is worn inside, so as to reduce the possibility of recognition when the product is carried in a concealed way.
